

ONUR ROOF TILE

"New Face of the Roofs"

ROOF VALLEY

Roof valley; It is a long lasting material which is made of roll-shaped and sun-resistant rubber material. It is a group of accessories used to drain water from the interior crumbs on movable roofs. Color options are available according to the color of the roof tiles used in the project. It is better to use and easier to apply than other equivalent Roof valley products. It is wrapped in roll form and packed with parcel. Since the package is a parcel, Sacking can be made on top of each other. The roof valley is light and easy to transport and carry on site. It is resistant to impacts with its flexible structure. It has a long life due to its flexible structure in cold and hot climatic conditions.

Onur Roof Tile
