

ONUR ROOF TILE

"New Face of the Roofs"

EAVES VENTILATION COMB

Eaves ventilation comb; The roof tiles are an accessory that is mounted to the most extreme point of the eaves before they are laid first. Purpose of use of eaves ventilation comb; When the first row of roof tiles is installed under the roof of the gaps under the roof allows air to close. It prevents mold and bacteria formation under the roof and prevents birds from entering under the roof tiles. The eaves ventilation combs made of polyethylene are resistant to ultraviolet rays and have a long service life.
