

**ONUR ROOF TILE**

"New Face of the Roofs"

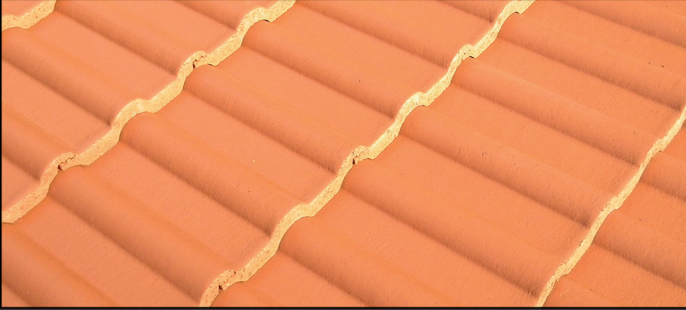

# ALUMINUM ROOF VALLEY

Aluminum roof valley; It is a long-lasting material produced from rolled and sun-resistant aluminum sheet material. It has an electrostatic paint resistant to sun rays. It is an accessory group used for evacuating water in the inner roofs in mobile roofs. Color options are available according to the roof tile color used in the project. It is better to use and very easy to apply compared to other equivalent mail stream products. It is wrapped in rolls and packaged with parcels. As the packaging is parcel, it can be stacked on top of each other. As aluminum roof valley is light, it is easy to transport and carry in construction site environment. It is resistant to impacts with its flexible structure. It is long-lasting due to its flexible structure in cold and hot climatic conditions.
